Cross' *Watermelon Patch* *Maine Tourmaline*

A heart of pink, a rind of green,
Held secure by curling tendrils of precious gold.

In October of 1972 the most spectacular gem find in North America and the largest find of gem tourmaline ever, occurred here in Maine. Notable within this find were huge watermelon crystals, many more than 8" in circumference. From an archival crystal collection held all these years, our jewelers have created this watermelon patch of tourmaline with curling vines of gold.

Colors, shapes, and sizes vary in infinite and fascinating combinations.
For a sampling and preview see our website at CrossJewelers.com/watermelon.
We look forward to your visit so that you may select your favorites.

If you can't wait, (and who could with such a collection?) give us a call.

Meteorite

Wedding Ring

Heaven on Earth

A summer's eve, a star-studded night,
a streak of light...a meteorite
...Ancient iron from forever
makes contact with Earth this night.

We have carefully forged and inlaid a silvery-gray slice from the famous nickel-iron Gibeon Meteorite into your choice of 18K yellow gold or precious platinum.

Because this ring *is* forever, each ring is specially contoured with an inner surface as smooth as sunshine for ultimate comfort. The ring is pure magic. It is awe inspiring, ethereal, mystical, epic... heroic. You'll love the way it feels.

Blue-Gray Eyes by Candlelight

A match struck. The candle lit. A room warmed to the light. Her blue-gray eyes came to life again. I have to admit I have always loved blue-gray eyes.

Soft, translucent, smokey blue-gray, a gentle color. Cut in cabochon, usually set in yellow gold. For whatever reason, this ring possesses mystic appeal. Women love it, I've never fully understood why, they just do.
