# Meteorite Wedding Rings

*Heaven on Earth*

A summer's eve, a star-studded night,  
a streak of light...a meteorite  
...Ancient iron from forever  
makes contact with Earth this night.

We have carefully forged and inlaid a silvery-gray slice from the famous nickel-iron Gibeon Meteorite into your choice of 18K yellow gold or precious platinum in four ring styles.

Because these rings *are* forever, each ring is specially contoured with an inner surface as smooth as sunshine for ultimate comfort. The ring is pure magic. It is awe inspiring, ethereal, mystical, epic... heroic. You'll love the way it feels.

Retro Ice is a refinement of a classic Cross design from the 50's and 60's. Your grandmother probably had one.

5/8 carat total wt, Russian Cut center  
14K yellow gold and platinum  
#EX2207.....\$3,685.00

## Retro Ice

*The pure cool white of diamond melts  
into the pure cool white of platinum;  
melts into summer's warmth of yellow gold.*

*Little waves of gold gather,  
swirling at the base of diamonds.  
Diamond light streams from center to side.  
Diamond light shimmers icy blue-white...  
quite simply, a delight.*

Jane Austen's  
*English Ivy*  
 Diamond Engagement Ring

From the era of lace and love, grace and honor.  
 This is a ring that is both romantic and perfectly logical.  
 The romance is in the details... it always is.

The Jane Austen English Ivy Ring is a ring for the romantically inclined. The logic: its absolutely impeccable craftsmanship, made to last, made for a lifetime of love. Our Austen style is eight rows of tiny beaded milligrain, twelve graduated diamonds, and English ivy exquisitely engraved down the sides.

Select from our extensive selection of vault diamonds (1/3 carat to over 2 carats) in platinum or gold.

Eureka Blue Tourmaline Crystal

The Owl

# Eureka, Blue!

## New Discoveries of Maine Tourmaline on Plumbago Mountain

The discovery began in September of 2009. A series of gem pockets were opened yielding the rarest and most desirable of all colors of tourmaline... Blue!

It is called the Eureka find. Eureka blue is a unique shade of tourmaline. It has been described as the color of the twilight sky at winter solstice. This find of winter teal gems is yielding some of the most sought-after cut and polished Maine tourmaline we have ever had the privilege to offer.

Historic finds of this nature seldom occur either here in Maine or anywhere in the world.

Stop in to see the new Eureka blue tourmaline gems as we are adding more to our collection every week.

Because this find is so new, visit our website to be kept up to date on developments. Sign up for our email newsletter so that we can share this part of Maine's gem history with you.

### The Owl Has Arrived In Portland

The Owl was found on the north wall of gem pocket #7 where it had stood sentry for 300 million years watching over its nest of blue tourmaline. The Owl was removed intact and is here in our store still watching over its tourmaline, only now the tourmaline have been cut and polished. The Owl has two large blue tourmaline eyes surrounded by two feather-white radiant crystals of cleavelandite. The head is owl brown lepidolite. Even if you are just a little curious you should stop in to see the owl and its tourmaline.
