Westminster

*This ring fills the room with such confident presence
you'd think a royal had just walked in.*

Westminster, designed to carry a full carat or larger size center diamond. Surrounded by a halo of 14 small diamonds which magnifies the center. Thirty-two additional small diamonds whisper brilliantly from the lacework and filigree detail at the sides. This ring is magnificent. Your choice platinum or 18K white gold. Center set with one of our vault diamonds or can be set with your family heirloom diamond.

THE RETURN

*Unlocking the door.
A dry still scent, shades pulled up,
Light flooding the room after a long winter's rest.
A rocking chair slid out onto the porch.
Windchimes hung in place.
This is the first day of your return
to your Maine summer house.*

Temptation

Chocolate is every bit as seductive as precious gold and gems. Sweet and dark, it melts on the tongue, lingers with delicious warm creaminess, part taste, part memory. Here we have home-grown, single-origin chocolate from Matinicus, one of Maine's most remote islands. A pure "chocolate rock" in specially carved curvy links, warm melty shapes combined with real gold*. It is an indulgence of the highest order so bold, beautiful, seductive, we call it *Temptation*.

FOR LOVE OF BLUE

Cobalt swept from an artist's palette,
Ripples of color, pure blue, brilliant,
A September sea and sky, cool and crisp,
Blue eyes, blue jeans, blue velvet, soft and warm,
Eternal color to calm and comfort.

We understand your love of blue. As jewelers we indulge our passion for blue in seeking the best of the best, blue sapphires. We spend weeks each year comparing, considering, to find the most perfect sapphires. Once chosen, we select high-white, precision-cut diamonds to complement. Our master jewelers then mount in platinum or gold.

The Sapphire Store
for all who love
the color blue.

Eureka Blue Tourmaline From America's Greatest Gem Mountain

Eureka Blue tourmaline came to first light September 24, 2009 with the opening of gem pocket #1 on Plumbago Mountain, Newry, Maine. What quickly followed was the opening of a series of additional gem pockets yielding the rarest and most desirable of all colors of tourmaline... blue!

Eureka Blue is a unique shade of teal blue tourmaline. It has been described as the color of the twilight sky at winter solstice. This find of winter teal gems is yielding some of the most sought-after cut and polished Maine tourmaline we have ever had the privilege to offer.

America's greatest gem mountain, Plumbago, was the site of our country's largest gem find in 1972 when more than 3 1/2 million carats of pink, green, and watermelon tourmaline were found just a thousand feet from the new Eureka Find. This new chapter of world gem history is currently being written as gems are cut and jewelry is made.
